I related to all the stories about the 1948-49 blizzard in News Magazine. It is hard for my family to believe how bad it was. I don't remember much about the Nov. blizzard, but I sure remember the January storm.

I was a 6<sup>th</sup> grader at Elsie, Neb. + we didn't have school the whole month of January, and everytime the wind came up, our school was cancelled in Feb + March.

We lived in the kitchen for those 3 days without electricity where my Mother had a gas stove. She baked bread frequently so we were never without food. We played alot of card + board games.

---

He couldn't see our neighbor's garage which covered over with snow.

My brother was just out of the Navy & living at home. On New Year's before it started snowing ~~he~~ he & his buddies went to a movie at Grant. From Madrid to Elsie (miles) they took turns walking in front of the car in order to see the road, and picked up an older man whose car was stalled.

I really enjoy your wonderful magazine & have been ordering it for family member's birthdays so they, too, can enjoy it.

Sincerely & thank you  
for a great Magazine about our  
beloved state.
