My Cousin, Iris Davis of Hay Springs called about your Jan/Febr issue, and said I must get it. - So I did yesterday.

I so enjoyed your article and Pictures on the '48/'49 blizzard. I lived 25 miles south of Cassett, and in those days, Country kids 'boarded' in town during the week, going home on weekends. While we were worried about our families, as most had no phones, it was exciting to see all the National Guard, the Planes, the Half-tracks and other equipment and how all the talk about dropping hay and food. In January I went home, only to get snowed in. One day the Plane buzzed our Place, landed and the Pilot said he had orders to bring Country kids back to town, so end of semester tests could be given. I was so excited and remember we ran on drifts over the barb wire fence. The Pilot was Don Higgins, whose Picture you had used the article. What memories - Thank you.

I Sherley Higgins
